

Section 3, Remarks:

REMARKS

Re-examination and reconsideration of this case is respectfully requested for the 20 claims now in this case in view of the amendments to the claims presented in the Response filed July 10th, and the additional amendments to Claims 1, 2, 11 and 12 presented herewith.

Applicant in this Supplemental Response merely moves the sticky path functionality from dependent Claim 2 into main Claim 1 as part e) iv). Likewise the sticky path step from dependent method Claim 12 has been moved into main Claim 11 as step e) iv). The sub-parts of Claims 2 and 12 have been renumbered. No other amendments have been made.

Since the language inserted into Claims 1 and 11 is already present in Claims 2 and 12, and as originally presented, no new matter has been introduced by this amendment.

Since the sticky path functionality was noted in the Office Action of February 10, 2006 as not being shown by the references, the introduction into main Claims 1 and 11 are added reasons for allowability of all claims.

In order to not burden the file by duplication of arguments, Applicant incorporates by reference herein the amendments to claims and the Remarks Section 3 of the Response filed July 10, 2006.

Applicant also makes of record the forwarding of a link to a short QuickTime movie demo of the sticky path functionality that was sent to Examiner Myint on August 21, 2006. As of this writing, undersigned counsel has not received confirmation from the Examiner that the e-mail was received and that the movie could be opened, viewed and heard. Confirmation would be greatly appreciated, as if this is helpful, additional short movies on other key features can be prepared and sent as aids to the Interview.

Favorable action of allowance of all claims is respectfully requested. In the event that there remain any open issues, the Examiner is requested to expedite the prosecution of this case by calling undersigned counsel for Applicant.

Respectfully submitted,
Dr. Bruce Horn, Applicant
